DD/A REGISTRY

FILE: O+M (IHTF)

MEMORANDUM FOR: Deputy Director for Administration

FROM :

SA/DDCI

SUBJECT : Recommendations of the Information Handling Task Force

REFERENCE : Your memo to Secretary, EXCOM, dated 12 Nov. 1980,
same subject

1. We have received positive telephonic responses to the Information Handling Task Force's (IHTF) proposed elements for a strategic plan outlined in the attached reference from the D/EEO, DDO, and your directorate. Responses from Bruce Clarke and Jim Taylor are attached. While the latter did not object to the proposed elements, he did find them disappointing. The Comptroller advised us that he, too, found them disappointing, but did not want to make an issue of it at this time.

2. While not strong endorsements, these responses seem adequate enough for the IHTF to complete their report and turn action over to the "Information Services Architect" when he goes into operation. I expect the Executive Committee will want to be advised of significant actions in this area as appropriate.
